

EUROPEAN STUDIO GLASS ART ASSOCIATION

Strasbourg, February 13th, 2009

Dear Professors

Our non-profit association aims at focusing on those who think glass is no ordinary substance but one endowed with extraordinary versatility enabling the development of art for its own sake.

For next year 2009, again ESGAA is planning to stage an exhibit of glass art designed by promising young artists at "Hotel du Département" hosting the Local Administration of the Bas-Rhin area.

This exhibit will take place from October to November at Place du Quartier Blanc in Strasbourg.

Usually we select 15 students from different schools (ESAD, CERFAV, Munich, Budapest for last years) you can send different propositions of different students and we'll make a selection here with you and others professors at spring 2009 (usually may/ june).

The jury will consist of professors at Strasbourg's ESAD, Vannes' CERFAV, Praha's Academy of Arts, Architecture and Design, artists and collectors. They will meet in order to select the most appropriate projects.

If you are agree that your students participate at this selection and in order to prepare for this oncoming event, students could forward the following CD Rom by April 30, 2009 :

ESGAA, 62 rue du Faubourg National. 67000 Strasbourg FRANCE:

Photographs of works (maximum 3 different propositions/student)

Photos of those works of art intend to exhibit

Blue prints or project work

A photograph of themself

A resum

Some substantial account of their project

Videos will be agreed on if they are a work of art in itself.

We wish to set up a dynamic incentive to show the audience the most current trend in glass art.

Sincerely,
Laurent Schmoll President

ESGAA 62, rue du Faubourg National 67000 STRASBOURG
